

REMARKS

Upon entry of the present amendment, claims 13 and 14 will have been canceled. Accordingly, claims 1-10 will remain pending in the present application. In view of the herein contained amendments and remarks, Applicants respectfully request reconsideration and withdrawal of the outstanding rejection set forth in the above-mentioned Official Action. Such action is respectfully requested and is now believed to be appropriate and proper.

Initially, Applicants respectfully thank the Examiner for indicating consideration of the Information Disclosure Statement and the documents cited therein filed on March 9, 2005. In this regard, Applicants note the Examiner's indication that the Korean publications have been considered to the extent possible based on the submitted English Abstracts. However, Applicants note that not only were English language Abstracts submitted, but partial English language translations of the Korean publications were also submitted. It is thus assumed that the Examiner's consideration is based on all of the submitted English language materials.

In the outstanding Official Action, the Examiner rejected claims 13 and 14 under 35 U.S.C. § 102(b) as being anticipated by YASUOKA et al. (U.S. Patent No. 4,885,766).

By the present Response, and without in any manner acquiescing in the propriety of the Examiner's rejection, Applicants have canceled claims 13 and 14, without prejudice or disclaimer of the subject matter thereof. Accordingly, the Examiner's rejection has been rendered moot.

P24021.A05

In view of the above amendment and remarks, Applicants respectfully request reconsideration and withdrawal of the outstanding rejection together with an indication of the allowability of all the claims pending in the present application. Such action is respectfully requested and is now believed to be appropriate and proper.

SUMMARY AND CONCLUSION

Applicants have made a sincere effort to place the present application in condition for allowance and believe that they have now done so. Applicants have canceled all of the rejected claims, thus leaving the present application with only claims indicated to be allowable by the Examiner. Accordingly, Applicants request a Notice of Allowance in due course.

Applicants note that the cancellation of claims 13 and 14 is expressly made without prejudice or disclaimer of the subject matter.

The amendments to the claims which have been made in this amendment, which have not been specifically noted to overcome a rejection based upon the prior art, should be considered to have been made for a purpose unrelated to patentability, and no estoppel should be deemed to attach thereto.

Should the Examiner have any questions or comments regarding this Response, or the present application, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,  
Sang Chul YOON et al.
